Who We Are.

Unisoft Synthetic Industries is the flagship manufacturing entity of Unisoft Group Bangladesh — established in 2012 at Bhulta, Rupganj, Narayanganj. The company operates across three integrated manufacturing divisions: EVA foam production, insulation and construction materials, and industrial chemical compounds.

As one of Bangladesh's leading EVA foam manufacturers, the company produces rolls, sheets, insoles, and mat products across 60+ active SKUs. Its insulation and construction division manufactures PUR and PIR insulated sandwich panels for cold rooms, industrial sheds, and poultry facilities, alongside aluminium laminated EVA foam rolls for roofing, HVAC, and thermal barrier applications.

Industrial adhesives and chemical compounds produced at the Narayanganj facility are distributed through Uniworld Adhesives & Sealants — a dedicated adhesive and sealant brand within Unisoft Group, and as of May 2026 the operator of Bangladesh's only full in-house silicone sealant production plant.

Part of Unisoft Group — founded in 1985 across seven business entities spanning manufacturing, chemicals, adhesives, hospitality, and trade — the company carries four decades of commercial trust and manufacturing expertise into every order.

ESTABLISHED	2012
PARENT GROUP	Unisoft Group Bangladesh — Est. 1985
MANUFACTURING	Bhulta, Rupganj, Narayanganj
FOUNDER	Anwarun Nabi Majumder
HEAD OFFICE	Family World Tower, Asad Gate, Mohammadpur, Dhaka
SISTER BRAND	Uniworld Adhesives & Sealants

"Manufacturing is not just what we do — it is what we are. Unisoft Synthetic Industries was built to prove that Bangladesh can produce at the standard the world demands, from raw material to finished product, entirely on home ground."

Anwarun Nabi Majumder
FOUNDER & CHAIRMAN · UNISOFT GROUP BANGLADESH

OUR MISSION

To manufacture EVA foam products, insulation panels, and industrial compounds that serve Bangladesh's industries with consistent quality and reliable domestic supply.

OUR VISION

To be Bangladesh's most trusted manufacturer of EVA foam, insulation, and synthetic materials — driving industrial capability across construction, footwear, and manufacturing.

Made in Bangladesh. Built at Scale.

Three integrated manufacturing divisions — EVA foam production, insulation and construction materials, and industrial chemical compounds — each operated fully in-house at Bhulta, Rupganj, Narayanganj.

Manufacturing facility — Bhulta, Rupganj, Narayanganj

Chemical compounding and adhesive plant — interior

EVA FOAM COMPOUNDING

In-house EVA resin blending — controlling VA content, density, and crosslinking for precise Shore C hardness, tensile strength, and elongation.

PUR/PIR PANELS & INSULATION

Polyurethane and polyisocyanurate sandwich panels for cold rooms, industrial sheds, and poultry facilities — plus aluminium laminated foam rolls for roofing and HVAC.

INDUSTRIAL ADHESIVE COMPOUNDING

Chemical adhesive compounds produced in-house and distributed through Uniworld Adhesives & Sealants — Bangladesh's only full in-house silicone sealant producer.

MULTI-THICKNESS EVA PRESSING

Production from 1mm to 60mm+ in sheet and roll formats. Plain, embossed (Guti), and aluminium foil laminated finishes across 20+ standard colours.

CUSTOM DIMENSIONS & OEM

Standard widths 54" and 59". Custom widths, roll lengths, and sheet sizes. Custom density and surface finish. OEM and private label production accommodated.

QUALITY CONTROL

Every batch tested for density, Shore C hardness, thickness tolerance, tensile strength, and elongation before dispatch. No product leaves outside specification.

Unisoft Cool Tin — PUR & PIR Insulated Roofing Panels.

Unisoft Synthetic Industries manufactures PUR and PIR insulated sandwich panels engineered for the strictest thermal insulation requirements while maintaining excellent load-bearing capacity, fire resistance, and durability.

PU Roof Sandwich Panel
Roof sandwich panels with polyurethane foam cores meet the strictest heat insulation requirements, while also complying with the required insulation properties and maintaining a good bearing capacity.

We supply a wide range of Roofing Sheets which are made of premium quality material which are durable and effective in application in construction industries. We provide them in various colors and sizes as per the specifications of the clients. These are easy to install and maintenance free. They are very attractive to appearance which is offered at cost effective rates at international standard.

PU sandwich are composed of 3 layers.

- External PPGI
- Memory PU insulation layer
- Aluminium foil layer

Which are widely using are

- Cold room/cold storage
- Container houses
- Pre-fabricated house & shelter
- Portable cabins
- Health center
- Schools, Stadium, warehouse
- Poultry, dairy, fishery shade project
- Green house insulated roof/wall
- Sub Zero temperature area
- Clean room
- Freezer room
- Bungalow & cottage houses and many more

Advantage/benefit of PU panel

- Light weight (resulting to save & use less materials in building & reduce total cost)
- First and easy installation/construction
- Low hit transfer coefficient
- Fire resistance class of B & B1
- Moisture insulator & water proof Air & water tightness
- Sound insulator/Noise free buildings
- Low energy consumption (Cooling & heating lost efficiency)
- High resistance against microbial & biologic contamination
- Product appearance and various color option
- Prevent rusting and corrosion

Specification

- Thickness of steel sheet 0.3-0.5mm
- Thickness of PU insulation 40-100mm
- Width 36"
- Length as per customer requirement
- Life time: 15-20 years

PU Roof Sandwich Panel — 3-layer construction with PPGI top sheet

Aluminium Laminated Insulation Rolls

PANEL LAYERS	Ext. PPGI · PU/PIR Core · Aluminium Foil	KEY ADVANTAGES
STEEL THICK.	0.3 – 0.5mm	
INSULATION	40 – 100mm PU/PIR	
PANEL WIDTH	36" standard · Custom available	
LIFESPAN	15 – 20 years	
FIRE CLASS	B & B1	
<ul style="list-style-type: none"> · Lightweight — saves materials, reduces cost · Fast and easy installation · Maintenance free · Low heat transfer coefficient · Moisture insulator · Waterproof · Air tight · Sound insulation · Noise-free buildings · Low energy consumption — efficient cooling/heating · High resistance against microbial contamination · Multiple colour options · Corrosion resistant 		

COLD ROOMS & COLD STORAGE Temperature-controlled warehouses and cold storage	INDUSTRIAL SHEDS Factories, warehouses, and large-span commercial buildings	POULTRY, DAIRY & FISHERY Climate-controlled agricultural shade structures
PRE-FABRICATED STRUCTURES Portable cabins, container houses, and pre-fab shelters	CLEAN ROOMS Health centres, labs, and contamination-sensitive environments	FREEZER ROOMS Sub-zero temperature storage and freezer room construction

60+ Product SKUs — Full Catalogue.

All products manufactured in-house at Bhulta, Rupganj, Narayanganj. Available in custom specifications — colour, density, and dimensions on request.

EVA FOAM ROLLS	
Plain EVA Roll — White/Black 1.0mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 1.3mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 1.5mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 2.0mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 2.5mm	59" only
Plain EVA Roll — White/Black 3.0mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 4.0mm	54" & 59" · Standard density
Plain EVA Roll — White/Black 5.0mm	54" & 59" · Standard density
Coloured EVA Roll — 1.0mm	54" & 59" · 20+ colours · Custom colour matching
Coloured EVA Roll — 1.5mm	54" & 59" · 20+ colours · Custom colour matching
Coloured EVA Roll — 2.0mm	54" & 59" · 20+ colours · Custom colour matching
Coloured EVA Roll — 3.0mm	54" & 59" · 20+ colours · Custom colour matching
Coloured EVA Roll — 5.0mm	54" & 59" · 20+ colours · Custom colour matching
Embossed / GUTI EVA Roll — 1.0mm	54" & 59" · Dotted surface · White/Black/Colour
Embossed / GUTI EVA Roll — 1.5mm	54" & 59" · Dotted surface · White/Black/Colour
Embossed / GUTI EVA Roll — 2.0mm	54" & 59" · Dotted surface · White/Black/Colour
Embossed / GUTI EVA Roll — 3.0mm	54" & 59" · Dotted surface · White/Black/Colour
Alu Laminated EVA Roll — Black 3.0mm	56" · Thermal & moisture barrier
Alu Laminated EVA Roll — Silver 3.0mm	56" · Thermal & moisture barrier
Alu Laminated EVA Roll — White 3.0mm	56" · Thermal & moisture barrier
High-Density EVA Roll — 3.0mm	54" & 59" · Elevated Shore C · Heavy-duty
High-Density EVA Roll — 5.0mm	54" & 59" · Elevated Shore C · Heavy-duty
Low-Density EVA Roll — 2.0mm	54" & 59" · Soft hand feel · Light cushioning
Low-Density EVA Roll — 3.0mm	54" & 59" · Soft hand feel · Light cushioning
EVA FOAM SHEETS	
Plain EVA Sheet — White/Black 2mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 3mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 5mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 8mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 10mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 15mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 20mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 30mm	Smooth surface · Custom cut to size
Plain EVA Sheet — White/Black 50mm	Smooth surface · Custom cut to size
Coloured EVA Sheet — 3mm	20+ colours · Footwear, crafts, and industrial
Coloured EVA Sheet — 5mm	20+ colours · Custom colour matching
Coloured EVA Sheet — 10mm	20+ colours · Custom colour matching
Coloured EVA Sheet — 20mm	20+ colours · Custom colour matching
Embossed / GUTI Sheet — 3mm	Dotted texture · Improved adhesive anchorage
Embossed / GUTI Sheet — 5mm	Dotted texture · Improved adhesive anchorage
High-Density EVA Sheet — 5mm	Elevated Shore C · Structural applications

High-Density EVA Sheet — 10mm	Elevated Shore C · Structural applications
High-Density EVA Sheet — 20mm	Elevated Shore C · Structural applications

FOOTWEAR COMPONENTS

EVA Shoe Insoles — Standard	Custom shape & size · Multiple densities · OEM-ready
EVA Shoe Insoles — Sports	High-rebound EVA · Arch support configurations
EVA Shoe Insoles — Slipper/Flat	Low-density · Thin profile · High volume production
PU Outsoles — Standard	Custom mould · All footwear types
PU Midsoles	Lightweight PU foam · Cushioning and energy return
Synthetic Footwear Components	Supporting parts for full footwear production lines

MATS & FLOORING

Cow / Animal Stall Mats	Anti-fatigue · Waterproof · Dairy and livestock use
Yoga Mats	Non-slip EVA · Sports & fitness · Custom colour
Prayer Mats	Soft cushioned EVA · Custom print available
Interlocking Puzzle Mats	Interlocking EVA tiles · Play areas · Gyms · Multi-colour
Anti-Fatigue Industrial Mats	Workstation and warehouse · Custom size
General Floor Mats	Residential and commercial · Colour options

INSULATION & CONSTRUCTION

PUR Sandwich Panels	Cold rooms · Industrial sheds · Poultry · Custom size
PIR Sandwich Panels	Fire-rated · Premium thermal performance · Construction
EVA Insulation Rolls	Pipe wrap · HVAC · General thermal insulation
Alu Laminated Insulation Roll — Black	56" · 3.0mm EVA + alu foil · Roofing & HVAC
Alu Laminated Insulation Roll — Silver	56" · 3.0mm EVA + alu foil · Roofing & HVAC
Alu Laminated Insulation Roll — White	56" · 3.0mm EVA + alu foil · Roofing & HVAC

Why Choose Unisoft Synthetic Industries.

FULLY IN-HOUSE MANUFACTURING From raw EVA resin and insulation compounds to finished rolls, sheets, and panels — everything at Narayanganj. No outsourcing. Full quality ownership.	EVA + INSULATION + ADHESIVES EVA foam, PUR/PIR panels, aluminium laminated roofing, and industrial adhesive compounding under one roof — distributed through sister brand Uniworld.	60+ SKU ACTIVE CATALOGUE 60+ active SKUs across EVA rolls, sheets, footwear, mats, insulation, and construction panels — a complete industrial solution from a single supplier.
DOMESTIC SUPPLY RELIABILITY Bangladesh-manufactured product eliminates import lead times, duty exposure, and currency risk. Fast turnaround and consistent quality from a local supplier.	CUSTOM SPECIFICATIONS Every product to exact specification — thickness, density, colour, width, and dimensions. OEM and private label production accommodated.	UNISOFT GROUP BACKING Flagship of Unisoft Group — founded 1985, seven entities, four decades of commercial trust and manufacturing expertise behind every order.

Our Core Values.

QUALITY WITHOUT COMPROMISE Every product meets specification before leaving our facility. Quality is the baseline, not a differentiator.	LONG-TERM PERSPECTIVE Unisoft Group has built businesses since 1985 with the intention to stay for decades, not years.	MADE IN BANGLADESH We manufacture domestically and invest in Bangladesh's industrial capability with every product we make.	PARTNERSHIP FIRST Our dealers, distributors, and clients are long-term partners. Decades-long relationships define our identity.
